<http://www.punt6.org/>

Col·lectiu Punt 6 is a cooperative of architects, sociologists and urban planner coming from different places and with more than 12 years of local, state-wide and international experience. We work to rethink the domestic, community and public spaces so they promote the social diversity without discrimination and hierarchies.

We approach the different projects from an intersectional gender perspective, through the participation and community action and promoting the sustainability and social, solidarity and feminist economy.
